0.2 Personal Portfolio

Welcome to my personal portfolio! Here you can find information about my projects, skills, experiences, and more. Live: https://santenova.github.io/me/index.html

0.3 Cool Projects

- **Is it Real or AI?**
  - Description: Real or AI is a sophisticated visual forensics tool using local model server like ollama or lms no fees, local or not even offline you can analyze texture consistency, lighting, metadata, watermarks, reverse image, exif and more..
  - Technologies Used: List of technologies used (computer-vision, forensics, image-analysis, ai-detection, visual-forensics, javascript, react).
  - Live Demo: Link prod is not in sync anymore with the repo which is way ahead
  - Source Code: GitHub Repository

0.4 Skills

Category	Skills
Primary Programming Languages	Python, TypeScript
Frameworks	TensorFlow, PyTorch, Keras, Ollama (if applicable), Others (specific ones if possible)
Data Analysis Tools	NumPy, Pandas, Matplotlib
Data Visualization Tools	D3.js, Chart.js
Operating Systems	Linux

0.5 AI and Data Science Skills

Category	Skills
Machine Learning (ML)	Supervised: (Classification, Regression), Unsupervised: (Clustering, Dimensionality reduction)
Natural Language Processing (NLP)	Text: (Sentiment analysis, Topic modeling), Generation: (Language modeling, Summarization), Conversational AI: (Dialogue systems, Chatbots)
Computer Vision (C. Vision)	Image classification, Object detection, Image segmentation
Modeling	Statistical modeling: Regression, Time series analysis; Predictive analysis: Forecasting, Anomaly detection
Data	Data preparation: Data cleaning, Feature engineering; Data visualization: Storytelling, Dashboard creation
Exotic Techniques	Decision Trees, Genetic Algorithms, Neural Networks (NN)

0.6 Contact

0.6.1 Hagen Geissler

Mobile: +4915560330873
E-mail: tokenfreeai@googlemail.com
Date of birth: 09 July, 1981
Nationality: German
Languages: English, German
