

AI and Data Engineer

Python, TypeScript, AI, TensorFlow, Torch, Keras, Ollama, LMS, Docker, React, openai-API’s, prompt engineering

Hagen Geissler

+4915560330873

Welcome!

I'm Hagen Geissler, a passionate advocate for open-source Artificial Intelligence (AI) and Data Engineering. I'm thrilled to share my projects with you, which showcase the potential of local free AI.

Personal Portfolio

Social Media & Contact Information

- **npm Package maintainer:** https://www.npmjs.com/package/@santex
- **Legacy Git Account:** https://github.com/santex
- **Git Account:** https://github.com/santenova
- **YouTube:** https://www.youtube.com/@tokenfreeai
- **Profile:** https://santenova.github.io/me/index.html
- **Mobile:** +4915560330873
- **E-mail:** tokenfreeai@googlemail.com
- **Date of Birth:** 09 July, 1981
- **Nationality:** German
- **Languages:** English, German

Skills

Programming Languages:

- Python
- TypeScript

Frameworks:

- TensorFlow Model server
- Ollama
- Torch, Keras, OpenCV, Node.js
- React

Data Analysis Tools:

- NumPy
- Pandas
- Matplotlib

Data Visualization Tools:

- D3.js
- Gnuplot
- Chart.js

Operating Systems:

- Linux
- Docker
- macOS

Database Insights

- Elasticsearch (I’m a huge fan of my first love)
- Redis (my second favorite)
- Chroma
- MongoDB
- PostgreSQL

Prompt-Engineering

As someone passionate about AI and NLP, I’ve developed a unique skillset in prompt-engineering.

With over 500 unique personas and more than 2,000 custom prompts created, I collect so thats why I know

AI and Data Science Skills

Category	Skills
Machine Learning (ML)	Supervised: Classification, Regression; Unsupervised: Clustering, Dimensionality reduction
Natural Language Processing (NLP)	Text: Sentiment analysis, Topic modeling; Generation: Language modeling, Summarization; Conversational AI: Dialogue systems, Chatbots
Computer Vision	Image classification, Object detection, Image segmentation
Vector Storage Design	Statistical modeling: Regression, Time series analysis; Predictive analysis: Forecasting, Anomaly detection
Exotic Techniques	Personas, Genetic Algorithms

Professional Experience

- **Creator of AI - Service Platform** https://only-agent.ai/ (2026)
  - Tokenfree AI usage
  - Local & Secure usage / EU compliance
  - No third parties
- **Hands on Lead Developer, VTV engine Funke Mediengruppe Berlin, Germany** (2021-2025)
  - Developed critical components for a petabyte-scale advertising platform using Python and Kubernetes
  - Coordinated development efforts across multiple teams and subsystems
- **Hands on Lead Data Engineer, Gruner + Jahr - Bertelsmann fulltime Berlin, Germany** (2019-2020)
  - Led the archive transmigration project, recovering data from Oracle to ElasticSearch
  - Developed metadata recovery and reassertion of 70+ years of German news history
- **Hands on Lead Developer, UnitedPrint – Radebeul, Germany** (2018)
  - Developed an industrial automation system for remote printing using Python and FFmpeg
- **Hands on Lead Developer – fulltime Limango / Otto Group – Munich, Germany (2015 - 2018)**
  - Created a BI Department
  - Cohort Calculations for Board and CEO, CTO
  - Automated BI KPI’s to intervaled reports

  - KPI reverse engineering from accounting to hadupe

[Lead Development, BI, Data Analysis, KPI]

- **Hands on Lead Developer – Contracts (2012 - 2014)**
  - Developed an e-commerce system for the Oprah Winfrey Network Rescue mission
  - Designed middleware between ticket booking and Hotel Partners for Southwest Airlines

[E-commerce, Middleware, Lead Development]

- **Hands on Founder & Quant Developer Neural-Alchemy – London, UK (2008 - 2012)**
  - Created a technical analysis sequencer on top of a NASDAQ Black-box system

[Quant Development, Technical Analysis, NASDAQ]

- **Intel Flex & Tech-Lead at Collinson Group – London, UK (2005 - 2007)**
  - Rescued the Intel Flex project

[Intel Flex, Lead Development, Tech-Lead]

- **ArconTech – London, UK (2004 - 2005)**
  - Developed diverse financial data solutions as a Developer fulltime

[Financial Data, Development, fulltime]

- **Pixelpark / Bertelsman – Berlin, Germany (2000 - 2003)**
  - Implemented Intershop Infinity E-Commerce Solutions as a Developer fulltime

[E-commerce, Development, Intershop Infinity]

Cool Projects

- **VectorVoyage**: A solution for querying datasets with 100% efficiency using Elasticsearch
- **Is It Real or AI?**: An AI-powered image analysis tool that determines whether an image is a real photograph or AI-generated
- **UFO Pilot**: A browser-based game where you take on the role of a pilot flying a UFO through various challenging levels
- **Ollama-Spaceship**: An open-source AI marketplace that enables companies to deploy AI models locally, reducing operational costs and increasing data sovereignty
